Applicable       Not applicable

In the third quarter of 2017, the Group continued to steadily carry forward all businesses as scheduled. The Group achieved total operating revenue of approximately RMB2,321,286,000 for the third quarter based on the PRC accounting standards, representing an increase of approximately 5.47% as compared to the corresponding period of 2016.

In particular, revenue from toll business amounted to approximately RMB1,862,309,000, representing an increase of approximately 7.65% year-on-year. In the third quarter, the daily average traffic volume of Shanghai-Nanjing Expressway was 91,157 vehicles, increased by approximately 8.03% year-on-year, of which, the average daily traffic volume of passenger vehicles was 71,060 vehicles, increased by approximately 7.83% year-on-year, while the average daily traffic volume of trucks was 20,097 vehicles, increased by approximately 8.78% year-on-year. The proportion of passenger vehicle traffic volume and truck traffic volume maintained relatively stable at approximately 77.95% and approximately 22.05% respectively. During the Reporting Period, revenue from Sujiahang Expressway decreased due to the traffic ban on trucks in the city proper of Suzhou since December 2016. The average daily traffic volume grew substantially for Nanjing-Lianyungang Highway, Ningchang Expressway and Zhenli Expressway. In addition, the passenger vehicle and truck traffic volume of other road and bridge projects increased to various extent. Continuing to maintain stable growth, our operation demonstrated a favorable overall performance.

### 3. SIGNIFICANT EVENTS

The revenue from the ancillary business in the third quarter amounted to approximately RMB415,199,000, representing a decrease of approximately 1.11% year-on-year, mainly resulting from year-on-year decrease in income from catering and retailing as a result of outsourcing of certain service areas. However, the overall operating revenue from service areas recorded an increase due to significant increase in rental income.

In terms of property business, due to the continuous implementation of regulation policies on the limitations on purchase of properties and grant of loans in the property sectors in Nanjing, Suzhou and Jurong, the Company made great efforts to increase the selling rate under the existing regulation policies. The development and sale of property projects under the property business progressed orderly and revenue from pre-sale of property projects amounted to approximately RMB54,607,000. However, since only a few property projects were delivered in this quarter, carry-over revenue from sales of delivered units amounted to approximately RMB29,428,000, representing a year-on-year decrease of approximately 16.09%. Advertising and other businesses achieved revenue of approximately RMB14,350,000, representing a decrease of approximately 10.56% year-on-year, mainly attributable to a year-on-year decrease in advertising business revenue.

In the third quarter, the operating cost of the Group amounted to approximately RMB965,235,000, basically in line with that of the corresponding period of last year; the operating profit amounted to approximately RMB1,320,566,000, representing an increase of approximately 12.13% year-on-year; the net profit attributable to equity holders of the Company amounted to approximately RMB996,339,000, representing an increase of approximately 13.24% as compared to the corresponding period of last year.
